

Brand Style Guide

LOGO · COLOUR · TYPOGRAPHY · VOICE · COMPONENTS · WEBSITE

yourtanzaniatrip.com · Version 1.0 · October 2026

INTRODUCTION

One brand, everywhere

This guide is the single reference for the Your Tanzania Trip brand. It covers the logo and its versions, colours, typography, tone of voice, interface components and the structure of the website. It ends with the build instructions for the website, so everything about the brand lives in one document.

> **About the values.** Colours were measured digitally from the supplied logo files, so treat them as close approximations of the artwork. Fonts and sizes are the chosen brand system; check them once on the live site and adjust here if needed. Nothing in this guide is taken from another company's brand.

01 · About the brand

Your Tanzania Trip is a personal travel brand for safaris, Kilimanjaro climbs and Zanzibar stays in Tanzania. We design every trip around the traveller and work with a named local partner, Kilimanjaro Nature Tours in Arusha, which runs the trips on the ground. The identity is warm, calm and trustworthy: acacia green, burnt copper and sunset gold on savanna sand and ivory, set in elegant capital lettering.

Personal
Speak to one traveller. "Your trip" is the promise: "you" and "your" in English, "je" and "jouw" in Dutch.

Honest
Say who does what, what is included and what a price covers. Never show ratings or awards that are not ours or our named partner's.

Calm
Generous space, soft colour and short sentences. Planning a trip should feel easy.

Rooted in Tanzania
Real places, people and routes. Photos and words come from trips we actually offer.

Logo

The logo shows an acacia tree and Kilimanjaro with a setting sun above the wordmark YOUR TANZANIA TRIP. A thin line with a small Africa symbol sits beneath it. There are two versions: one for light backgrounds and one for dark backgrounds.

Primary: dark lettering, TANZANIA in copper. Use on ivory, white and light photos. This is the header logo. File: logo-primary.png

Reversed: ivory lettering, TANZANIA in gold. Use on Forest, Mountain and dark photos. This is the footer logo. File: logo-reversed.png

Clear space and size

- Keep clear space on every side at least equal to the height of the capital letters in the wordmark.
- Minimum width: 160px on screen, 40mm in print. Below that, use the round icon.
- Website header: logo height of about 56–64px on desktop and 44px on mobile.

Logo do's and don'ts

Do

- Use the supplied files only, at their original proportions.
- Use the primary logo on light backgrounds and the reversed logo on dark ones.
- Place the logo on calm areas of a photo, or on a solid Ivory or Forest band.

Don't

Don't stretch or squash

Don't recolour

Don't put the primary logo on dark

Don't rotate

Don't add shadows or effects

Don't place on busy backgrounds

> **Partner logos.** Never place our logo next to, or merged with, the logo of Kilimanjaro Nature Tours as if they were one brand. Partner logos appear only in the partner section and only with written permission.

Icon, favicon and social

The round icon shows the same landscape in a gold ring. Use it wherever the full logo would be too small.

Round icon (icon.png, icon-512.png)

Use	File	Size
Browser tab	favicon.ico, favicon-32.png, favicon-16.png	16, 32, 48 px
iPhone home screen	apple-touch-icon.png	180 px
Android / web app	icon-192.png, icon-512.png	192, 512 px
Social profile pictures	icon.png	1092 px
Link previews (Open Graph)	og-image.jpg	1200 × 630 px

Shown at actual relative sizes

Social share image

og-image.jpg: the reversed logo on Forest. This is the default image when a page is shared on WhatsApp, Facebook or LinkedIn.

Colour palette

The palette comes straight from the logo: the dark acacia green, the copper of TANZANIA, the gold of the sunset and the green of the mountain, on savanna sand and ivory.

Forest
PRIMARY

HEX #20281B
RGB 32, 40, 27

Headings, body text, header and footer backgrounds. The logo lettering itself is near-black (#000800).

Copper
ACTION

HEX #A83800
RGB 168, 56, 0

Primary buttons, links and the word TANZANIA in the logo.

Sunset Gold
HIGHLIGHT

HEX #E69016
RGB 230, 144, 22

Highlights, icons and badges, and the reversed logo lettering. Use with dark text or on dark backgrounds.

Mountain
SECONDARY

HEX #355248
RGB 53, 82, 72

Calm section backgrounds, secondary headings and panels.

Savanna Sand
NEUTRAL

HEX #DCC496
RGB 220, 196, 150

Borders, dividers and soft panels.

Ivory
BASE

HEX #FAF6EC
RGB 250, 246, 236

Page background.

Supporting colours

Colour	HEX	RGB	Use
Copper Dark	#8C2F00	140, 47, 0	Hover and active state of buttons and links
Amber	#FCAB2A	252, 171, 42	Light end of sunset gradients only
White	#FFFFFF	255, 255, 255	Cards and form fields

Ivory, Savanna Sand, Copper Dark and Amber were added to make the palette usable on screen. Sand is sampled from the hills in the logo, and ivory matches the reversed lettering.

Colour use and contrast

Proportions

Roughly: Ivory 55% · Forest 20% · Sand 10% · Mountain 7% · Copper 5% · Gold 3%. Copper and gold are accents: they draw the eye because they are used sparingly.

Rules

- Forest for headings and body text; Ivory for page backgrounds.
- Copper for buttons and links only. One copper primary button per screen.
- Gold for highlights, icons and accents on dark backgrounds; with dark text when it is a background.
- Keep greens dark and muted, as in the logo. Never use bright olive green or mustard yellow.
- Sunset gradients (Amber → Gold → Copper) only as decoration: dividers, image overlays, the call-to-action band.

Measured contrast (WCAG 2.1, AA needs 4.5:1 for normal text)

Forest on Ivory — 14.1:1 AA ✓	Copper on Ivory — 6.0:1 AA ✓
Mountain on Ivory — 7.9:1 AA ✓	Ivory on Copper — 6.0:1 AA ✓
Ivory on Forest — 13.9:1 AA ✓	Gold on Forest — 6.1:1 AA ✓
Forest on Sand — 9.0:1 AA ✓	Copper on Sand — 3.8:1 too low

Never use small copper text on Sand panels; use Forest instead.

Typography

The logo uses light, elegant capitals with a slightly flared stroke. Headlines echo that with **Marcellus**; everything else uses **Inter** for easy reading. Both are free Google Fonts. Fallbacks are Georgia and Arial.

HEADLINES

Marcellus
Aa Bb Cc Dd Ee
0123456789

BODY AND INTERFACE

Inter
Aa Bb Cc Dd Ee
SemiBold Bold

Type scale

Display Marcellus · 56px / 42pt	Jouw reis door Tanzania
Heading 1 Marcellus · 40px / 30pt	Populaire safari's
Heading 2 Marcellus · 28px / 21pt	Serengeti & Ngorongoro, 7 dagen
Heading 3 Inter SemiBold · 20px / 15pt	**Wat is inbegrepen**
Body Inter Regular · 17px / 12.75pt · line height 1.6	We stellen je reis samen met onze lokale partner in Arusha. Je krijgt één vast aanspreekpunt en een duidelijk programma.
Small / caption Inter Regular · 13px / 9.75pt	Prijs per persoon, gebaseerd op 2 reizigers.
Label / navigation Inter SemiBold · 12–13px · capitals · 0.15em tracking	REIZEN · SAFARI'S · KILIMANJARO · ZANZIBAR

Headlines use sentence case. Capitals are reserved for small labels and navigation, as in the logo. Minimum body size is 16px.

Tone of voice

Warm, concrete and honest. We write like a knowledgeable friend who has been there and helps you choose: plain language, short sentences, real details and no hype.

Personal · Honest · Calm · Concrete

English

Prefer	Avoid
Concrete details: park names, number of days, what is included	Superlatives such as "the best" or "once in a lifetime"
"Your trip", "we will plan it with you", "free quote, no obligation"	"Customers", "packages", pressure such as "only 2 left"
Naming our partner and what they do	Presenting partner ratings or awards as our own
Action-led buttons: "Get my free quote"	Long or vague button labels
Consistent terms: trip, itinerary, quote	Changing names for the same thing

Dutch: always "je", never "u"

Wel	Niet
"Vraag je gratis offerte aan"	"Gelieve een offerte aan te vragen"
"We stellen je reis samen"	"U wordt door ons bediend"
"Jouw reis door Tanzania"	"De klant ontvangt het programma"
"Gratis en vrijblijvend"	"Boek nu, op = op!"

Standard terms

English	Dutch
trip	reis
itinerary	reisprogramma
quote	offerte
Plan your trip	Plan je reis
Price on request	Prijs op aanvraag

Components

Soft and calm: 8px corners on buttons and fields, 12px on cards, a Sand border, subtle shadows and clearly visible focus states.

Buttons

Vraag je gratis offerte aan | Hover | Bekijk reizen | Plan je reis

Button	Style	Use
Primary	Copper fill, Ivory text; hover Copper Dark	The single main action on a screen
Secondary	Ivory fill, Forest 1.5px outline	Alternative actions
On dark	Ivory outline and text	On Forest or photo backgrounds

Form fields

VOLWASSENEN: 2

AANKOMSTDATUM: november 2026

E-MAIL: naam@voorbeeld.nl

Labels stay visible above the field. The focus state is a Forest border plus a 2px Gold ring. Error messages are specific and sit below the field.

Trip cards

Wildlife en strand in één reis

Prijs op aanvraag

7 dagen — PHOTO

Kilimanjaro, Machame

Beklim het dak van Afrika

Prijs op aanvraag

Example content and gradient placeholders only. Real trips, prices and photos come from the partner.

Badges, links and icons

Populair | 7 dagen | Kilimanjaro

Lees meer over de Serengeti

Use one outline icon set (e.g. Lucide) in Forest or Gold, 1.5px stroke.

09 · WEBSITE STRUCTURE

Website structure

The home page follows a familiar, proven travel-site flow, told entirely in our own words and style. Top to bottom:

UTILITY BAR	NL/EN · EUR/USD · partner rating with source · WhatsApp
HEADER	Logo · Reizen · Safari's · Kilimanjaro · Zanzibar · Ontdek Tanzania · ♡ · Plan je reis
HERO	Large photo, dark gradient, Marcellus headline · trip planner card (adults, children, date)
USP ROW	100% op maat · Lokale partner · Gratis offerte · Persoonlijk contact · Wij regelen alles
INTRO	Who we are and how we work with Kilimanjaro Nature Tours
POPULAR TRIPS	Trip cards: photo, days, title, one line, price or "op aanvraag", ♡
REVIEWS	Partner rating per source with date and link, plus real review cards
INSPIRATION	Six tiles: Safari's, Kilimanjaro, Zanzibar, Parken, Eilanden, Huwelijksreis
CALL TO ACTION	"Laat ons jouw reis op maat maken" · Vraag je gratis offerte aan
FOOTER	Reversed logo · links · contact · KvK and BTW · legal links

Other pages

- **Reizen**: overview with filters, and detail pages with day-by-day programme, map, inclusions, FAQ and a sticky quote card
- **Bestemmingen**: Serengeti, Ngorongoro, Tarangire, Lake Manyara, Great Migration, Kilimanjaro, Zanzibar
- **Plan je reis**: multi-step form with progress bar and thank-you page
- **Onze partner**, **Reviews**, **Over ons**, **Contact**
- **Praktische info**: visa, health, safety, packing list, best time to visit, FAQ
- **Blog**, **Wishlist**, legal pages (terms, cancellation, privacy, cookies)

10 · IMAGERY AND FORMATS

Imagery and formats

Photography

- Warm, natural light: golden hour on the savanna, mountain views, real camps and lodges, real guides.
- Only photos we own or have licensed; never photos from other travel sites. Every image gets alt text.
- Prefer people experiencing the place over empty stock shots. No heavy filters.
- Place text only on calm areas, or on a dark gradient overlay (Forest at 60–70%).

Reviews and prices

- Reviews always per source, with date and a link. Never invent, rewrite or embellish them.
- Prices only when confirmed by our partner; otherwise "Prijs op aanvraag" / "Price on request".

Formats

Format	Guideline
Website	Ivory background, generous whitespace, WCAG AA contrast, keyboard navigation, visible focus
Social posts	1080 × 1350 (feed) and 1080 × 1920 (stories); logo or icon visible at phone size; one message per post
Email and quotes	Primary logo top left, value first, one copper call to action, personal sign-off from a named person
Print	Use a vector (SVG/PDF) redraw of the logo for large sizes; check colours on a proof

11 · COMPANY AND CONTACT DETAILS

Company and contact details

Item	Detail
Brand	Your Tanzania Trip · yourtanzaniatrip.com
Company and brand owner	Tijs Krops
Address	Sluitgatweg 10, 8308 RE Nagele, Netherlands
Chamber of Commerce (KvK)	97223344
VAT (BTW)	NL005256557B94
Email	info@yourtanzaniatrip.com
Phone	+31 6 29351377
Local partner	Kilimanjaro Nature Tours, Arusha, Tanzania · kilimanjaronaturetours.com

Approval of logo variants, colour changes and new brand uses goes through the brand owner.

Quick reference

Forest	Copper	Sunset Gold	Mountain	Savanna Sand	Ivory
#20281B	#A83800	#E69016	#355248	#DCC496	#FAF6EC

Headlines	Marcellus
Body and UI	Inter Regular / SemiBold
Primary button	Copper #A83800, Ivory text, 8px radius; hover #8C2F00
Links	Copper, underlined
Voice	Personal · Honest · Calm · Concrete. Dutch: "je"
Never	Bright olive or mustard, stretched or recoloured logos, borrowed ratings, invented reviews or prices

APPENDIX A

Logo files

The logo files are in the logo kit (yourtanzaniatrip-logo-kit.zip). In the website project they go in `public/brand/`.

File	What	Use
logo-primary.png	Primary logo, transparent, full size	Website header, documents
logo-primary-600.png	Primary logo, 600px wide	Email signature, light web use
logo-reversed.png	Reversed logo, transparent, full size	Footer, dark sections
logo-reversed-600.png	Reversed logo, 600px wide	Dark web use
icon.png	Round icon, transparent	Social profile pictures
icon-512.png, icon-192.png	Round icon	Web app manifest
apple-touch-icon.png	Round icon 180px	iPhone home screen
favicon.ico, favicon-32.png, favicon-16.png	Favicons	Browser tab
og-image.jpg	1200 × 630, reversed logo on Forest	Link previews

> The transparent files were prepared from the supplied artwork: the black background was removed from the reversed logo and edge fringing was cleaned from the primary logo. For large print work, have a designer make a vector (SVG) redraw.

APPENDIX B

Website build instructions

This is the prompt for building the website with Claude Code in VS Code. Copy everything from section 0 onward and paste it into Claude Code, in the project folder.

Version 2. Long autonomous build in Claude Code (VS Code), plan for 60 minutes or more.

How to use it:

1. Unzip `yourtanzaniatrip-logo-kit.zip` into the project as `public/brand/`.
2. Put this style guide PDF in the project as `docs/brand-style-guide.pdf`.
3. Open the project folder in VS Code, start Claude Code, and paste everything from section 0 down.

---

0. Role and mode

You are the lead engineer, designer and copywriter building **yourtanzaniatrip.com**, a website where travellers plan and book tailor-made safaris, Kilimanjaro climbs and Zanzibar trips in Tanzania.

Work autonomously for as long as it takes (plan for at least 60 minutes of continuous work):

- Do not stop to ask questions. When something is unknown, use a clearly marked placeholder, log it in `TODO-OWNER.md`, and keep building.
- Keep a task list, work in the phases of section 9, and run the build after every phase.
- Commit after every phase with a clear message.

1. Goal in one sentence

Rebuild the current site at `http://localhost:3000` into the Your Tanzania Trip site:

- **Keep the same page structure, user flow and level of polish** as the current site.
- **Make every piece of content and every visual detail our own**: logo, colours, fonts, text, images, trips, reviews and links.

2. Non-negotiable rules

1. **Nothing copied may remain.** The current project contains material from another company's website (Tanzania Specialist, tanzania-specialist.com, Africa Safari Trips). None of the following may remain:
   - their text, images, logos, icons or badges
   - their itineraries, trip names, prices or "from" prices
   - their review scores, counts or quotes
   - their outbound links
   - their fonts (museo-sans, dk-liquid-embrace) or colour values (olive #465B2D, brown #3D1F17, rust orange, mustard yellow)
   - their exact markup or class names, where those mirror their site
2. **Structure may be similar; expression must be our own.** Common travel-site patterns are fine: a utility bar, a hero with a trip planner, a USP row, trip cards, a reviews block, inspiration tiles, a call-to-action band and a footer. Their wording, layout details, imagery, iconography and visual style are not.
3. **No borrowed ratings or awards.** Never show a rating, review count, "Travellers' Choice" badge or award that does not belong to this brand or its named partner. Partner reviews appear only as described in section 6.
4. **No invented facts.** This covers reviews, guest names, prices, licence numbers, years in business, team members and awards. Use `[FILL: ...]` placeholders. They are visible in development, and the release check fails on them (phase 9).

5. **Be honest about who does what.** Your Tanzania Trip is the booking and contracting party. Kilimanjaro Nature Tours (KNT) is the named local partner that runs the trips on the ground.

3. Brand facts (single source of truth: create `src/config/site.ts`)

Brand and company

Field	Value
Brand name	Your Tanzania Trip
Domain	yourtanzaniatrip.com
Company	Tijs Krops
Address	Sluitgatweg 10, 8308 RE Nagele, Netherlands
Chamber of Commerce (KvK)	97223344
VAT	NL005256557B94
Email	info@yourtanzaniatrip.com
Phone	+31 6 29351377
WhatsApp	`[FILL: confirm whether WhatsApp uses the same number]`
Tagline	`[FILL: owner picks one]`. Proposals: "Your trip, planned with care" · "Tanzania, tailor-made for you" · "Safari, summit and sea, your way"
Package-travel protection / insolvency cover / memberships (GGTO, ANVR, SGR)	`[FILL]`. Claim none until confirmed.

Local partner

- **Kilimanjaro Nature Tours** (kilimanjaronaturetours.com), Arusha, Tanzania, run by Baraka Dalali.
- Public partner contact: info@kilimanjaronaturetours.com, P.O. Box 611, USA River, Arusha.
- Partner credentials (TATO, TANAPA, Tanzania Tourist Board) appear only with the partner's written permission. TALA licence number: `[FILL]`.

Services

- Kilimanjaro: the main routes and Mount Meru, each with `[CONFIRM WITH KNT]`.
- Safaris: Serengeti, Ngorongoro, Tarangire, Lake Manyara, Great Migration, and the southern circuit.
- Zanzibar beach extensions.

Prices, languages and currencies

- **Prices:** only figures supplied by the partner in `data/prices.json` `[FILL]`. Until then, show "Prijs op aanvraag" (NL) or "Price on request" (EN), with a quote button.
- **Languages:** Dutch (default for NL visitors) and English.
- **Dutch copy:** always uses the informal "je", "jouw" and "jullie", never "u".
- **Currencies:** EUR (default) and USD switch in the utility bar.

4. Visual identity (from the style guide)

Logo files in `public/brand/`

File	Use
`logo-primary.png`	Transparent, dark lettering. Use on ivory, white and light backgrounds; this is the header logo.
`logo-reversed.png`	Transparent, ivory and gold lettering. Use on Forest or other dark backgrounds: footer, dark hero overlays, dark sections.
`logo-primary-600.png`, `logo-reversed-600.png`	Smaller web versions.
`icon.png`, `icon-512.png`, `icon-192.png`, `apple-touch-icon.png`, `favicon.ico`, `favicon-32.png`, `favicon-16.png`	Round icon for the favicon, PWA manifest and social profiles.
`og-image.jpg`	1200×630 social share image.

Logo rules:

- Use `next/image` with correct width and height, and alt text "Your Tanzania Trip".
- Header height is about 56–64px on desktop and 44px on mobile; minimum logo width is 160px.
- Never put the primary logo on a dark or busy background.

Colour tokens (CSS variables and the Tailwind theme)

Token	HEX	Use
`forest`	#20281B	Primary: headings, body text, header and footer backgrounds
`copper`	#A83800	Action colour: primary buttons and links (6.0:1 on ivory)
`copper-dark`	#8C2F00	Hover and active states for buttons and links
`gold`	#E69016	Highlights, icons, badges, accents on dark backgrounds (6.1:1 on forest)
`amber`	#FCAB2A	Light end of sunset gradients only
`mountain`	#355248	Secondary panels and section backgrounds, secondary headings
`sand`	#DCC496	Borders, dividers, soft panels (never small copper text on sand: 3.8:1)
`ivory`	#FAF6EC	Page background
`white`	#FFFFFF	Cards

Keep greens dark and muted. Never use bright olive green or mustard yellow.

Typography

- **Headings:** Marcellus (Google Fonts). Display 56px, H1 40px, H2 28px.
- **Body and UI:** Inter. H3 20px SemiBold, body 17px, small 13px.
- Load fonts with `next/font/google`. Fallbacks are Georgia and Arial.
- Small labels and the main navigation may use capitals with wide letter spacing, echoing the logo. Headings use sentence case or title case, not heavy condensed all-caps.

Components

Build these from scratch:

- **Buttons:** 8px radius.
- Primary: copper fill with ivory text.
- Secondary: ivory fill with a forest outline.
- Ghost-on-dark: ivory outline.
- **Cards:** white or ivory, sand border, 12px radius, soft shadow, image zoom on hover (respect `prefers-reduced-motion`).
- **Inputs:** persistent label, visible border, 2px gold focus ring.
- **Links:** copper and underlined.
- **Icons:** one consistent outline icon set, such as lucide-react, in forest or gold.

Imagery

- Use local placeholder images clearly labelled `PLACEHOLDER` until the owner supplies photos they own or have licensed.
- Never download or hotlink photos from other travel sites.
- Give every image alt text.
- Subtle sunset gradients (amber to gold to copper) and the acacia-and-mountain motif may be used as decorative section dividers.

5. Page structure: mirror the current site's flow, our own expression

Inspect `localhost:3000` and every route in the project first. Then rebuild each section as follows.

1. Utility bar (thin, forest background)

- Language switch NL/EN and currency switch EUR/USD.
- One trust item, e.g. "Lokale partner in Arusha · Kilimanjaro Nature Tours ★ 5.0 op Tripadvisor (208 reviews, gecheckt [FILL: date])", linked to the partner's real Tripadvisor page.
- Links to "Praktische info" and WhatsApp.
- No other scores.

2. Header (ivory, sticky)

- `logo-primary.png`.
- Navigation: Reizen (mega-menu), Safari's, Kilimanjaro, Zanzibar, Ontdek Tanzania (mega-menu).
- Wishlist heart, search, and a primary button "Plan je reis".

3. Hero

- Full-width image placeholder with a dark gradient overlay.
- Headline in Marcellus, for example "Jouw reis door Tanzania, met zorg samengesteld".
- A **trip planner card** in our own style: ivory card, copper button, gold focus states. Fields: number of adults, number of children, rough arrival date. The button is "Start met plannen".
- Microcopy: "Gratis en vrijblijvend. We stellen je reis samen, zonder kosten of verplichtingen."

4. USP row (sand background, gold check icons)

- 100% op maat
- Lokale partner in Arusha
- Gratis offerte
- Persoonlijk contact
- Wij regelen alles

5. Intro block

H2 plus a short personal paragraph about who we are and how we work with KNT.

6. Popular trips

- A carousel or grid of trip cards: image, duration badge, title, one-line description, "Prijs op aanvraag" or a partner-confirmed "vanaf" price, and a wishlist heart.
- Start with 6–8 trips built from the partner's real offer, with `[CONFIRM WITH KNT]` on any detail not confirmed.
- Write all titles and descriptions fresh.

7. Reviews block

- Headline "Wat reizigers zeggen".
- Partner block with the source logo or text, score, count, date checked, and a link.
- Individual review cards only from `data/reviews.json` supplied by the owner. If it is empty, show the partner block plus a "Lees reviews op Tripadvisor" link.

8. Inspiration tiles

Six image tiles: Safari's, Kilimanjaro, Zanzibar, Nationale parken, Eilanden, Huwelijksreis. Each has an overlay title and links to its category page.

9. Call-to-action band

Mountain or forest background with a sunset gradient accent. Text: "Laat ons jouw reis op maat maken". Button: "Vraag je gratis offerte aan".

10. Footer (forest background)

- `logo-reversed.png`.
- Columns: Reizen, Bestemmingen, Over ons, Contact (email, phone, WhatsApp).
- Partner mention and newsletter field.
- Legal links, plus KvK 97223344 and BTW NL005256557B94.
- © Your Tanzania Trip.

Other pages

Each gets the same visual system:

- **Trip overview** with filters (type, duration, budget) and **trip detail pages**: day-by-day timeline, map placeholder, included and excluded, price or "on request", FAQ, sticky quote card.
- **Destination pages:** Serengeti, Ngorongoro, Tarangire, Lake Manyara, Great Migration, Kilimanjaro, Zanzibar.
- **Plan je reis:** a multi-step form covering travellers, dates, interests, budget, accommodation level and contact. It has a progress bar, validation and a thank-you page.
- **Onze partner**, **Reviews**, **Over ons** and **Contact**.
- **Praktische info:** visa, health, safety, packing list, best time to visit, FAQ.
- **Blog:** three original starter articles.
- **Wishlist**, if the current code supports it.
- **404.**
- **Legal pages:** Algemene voorwaarden, Annuleringsvoorwaarden, Privacybeleid, Cookiebeleid. Write them as clearly marked drafts for lawyer review.

6. Trust and reviews

- **Partner block:** on the home page, plus a dedicated "Onze partner" page. It explains who KNT is, where they are, licences (with permission), a team photo `[FILL]`, and who does what.
- **Review sources:** reviews are always shown per source, attributed, dated and linked. Never rewrite or embellish review text.
- **Structured data:** Organization (with our company details), WebSite, TouristTrip, BreadcrumbList and FAQPage are allowed. **Never output `AggregateRating` or `Review` markup based on the partner's ratings.**
- **Calls to action:** honest and low-commitment. Make a response-time promise only once the owner confirms it `[FILL]`.

7. Copy and tone

- Warm, concrete and honest; written as a knowledgeable friend.
- Short sentences. Real park names, days and what is included.
- No hype or superlatives, and no fake scarcity.
- Dutch uses "je".
- Write all copy fresh, in NL and EN.
- Consistent terms:
- NL: reis, reisprogramma, offerte
- EN: trip, itinerary, quote

8. Technical requirements

- **Framework:** Next.js App Router, TypeScript, Tailwind with the tokens above.
- **Internationalisation:** routes `/nl` and `/en`, with hreflang, canonical URLs and a language switch that keeps the current page.
- **SEO:** sitemap.xml, robots.txt, metadata and an Open Graph image per page (default `og-image.jpg`), and a manifest with the icons.
- **Images:** `next/image` everywhere.
- **Forms:** server-side validation (zod), honeypot spam protection, and email delivery behind environment variables. No secrets in code; add `.env.example`.
- **Contact:** WhatsApp click-to-chat.
- **Privacy:** a cookie banner that blocks analytics until consent, and a privacy-friendly analytics placeholder.
- **Accessibility:** WCAG AA contrast (tokens above), keyboard navigation, visible focus and reduced-motion support.
- **Quality targets:** Lighthouse 90+ on all four desktop scores. Mobile-first and responsive down to 360px.

9. Phases (in order, commit after each)

1. **Audit.**
   - Read the whole project and click through `localhost:3000`.
   - Write `AUDIT.md`: every route, section, component, string, asset, link, colour and font that came from the source site.
   - Write `REPLACEMENT-MAP.md`: what replaces each item.
2. **Foundation.**
   - `src/config/site.ts`, design tokens, fonts, logo assets, favicon and manifest.
   - Layout shell (utility bar, header, footer) and the i18n skeleton.
3. **Remove.** Delete all copied copy, images, logos, badges, review numbers, fonts and outbound links to the source. Replace them with placeholders.
4. **Home page.** All ten sections from section 5, in NL and EN.

5. **Trips and destinations.** Data in JSON or MDX, generated pages, filters, trip detail template.
6. **Plan je reis and contact.** The multi-step flow with validation, a thank-you page and tests.
7. **Partner, reviews, practical info, blog, about, legal pages.**
8. **SEO, performance and accessibility.** Metadata, schema, sitemap, image optimisation, a Lighthouse run, and fixes.
9. **Guardrails and checks.**
   - Add `npm run audit:brand`. It fails if any of these appear in `src`, `public`, `data` or `messages`: `tanzania-specialist`, `Tanzania Specialist`, `africasafaritrips`, `Africa Safari Trips`, `museo-sans`, `dk-liquid-embrace`, `5247`, `1689`, `Travellers' Choice 2026`, `465B2D`.
   - Add `npm run audit:release`. It runs `audit:brand` and also fails on any remaining `[FILL`. It is expected to fail until the owner supplies the missing facts: never resolve it by inventing content.
   - Run lint, typecheck, build, tests, a broken-link check and `audit:brand`. Fix everything except open `[FILL` items.
10. **Handover.**
    - `README.md`: setup, deploy to Vercel, environment variables.
    - `TODO-OWNER.md`: every placeholder, every question, every permission needed from KNT, and every legal check (package travel rules, insolvency cover, US seller-of-travel registration).
    - A short summary of what is finished and what is not.

10. Working style

- Keep going without asking for permission.
- Make many small, checked edits rather than one huge one, and re-read files before editing them.
- After each phase, start the dev server and visually check the pages you changed at desktop and mobile width.
- If you are blocked, log it in `TODO-OWNER.md` and move on.
- Never invent content to fill a gap.
